Staff News - An introduction to our newest team members and a welcome back to another...

Featured Product Range - Hub City's range of splined billets, shafts and reducing bushes...

New Product

Designed with the fishing industry in mind the Brand SDCF proportional valve features a rotary, friction detented handle for easy control over speed sensitive applications, such as line hauling on a fishing boat.

Valve features:

- * 4-way valve, stainless steel spool
- * Rotary friction handle for easy control
- * Adjustable relief valve, 207 bar maximum
- * Rated flow from 0-68 l/min
- * Cast iron body with UNO porting
- * Fine positive metering is possible in both directions
- * Amount of flow (speed) is constant, regardless of pressure variation
- * Suitable for an open centre system, i.e. gear pump

Staff News

Hyspecs Auckland and Christchurch have had a few staff changes over the past months including a welcome back to a face from the past.

Christchurch has a new sales engineer, Wayne Sare and he will be looking after the Otago / Southland regions. We welcome back Kathy Shailer to her previous office managerial position. Kathy comes back after a year's leave spent looking after her twin boys, Joshua and Caleb.

Our Auckland branch welcomes aboard two new team members; Trevor Wheal fills a new service engineering position whilst Andreas takes over the sales engineering role for the New Plymouth / Wanganui region.

Trevor Wheal

Andreas Larsson

For more information on our newest staff members and to see who else is working at Hyspecs check out our [staff profiles page on our website](#).

Featured Product Range

Hyspecs stocks a full line of Hub City splined hubs, shafts and reducing bushes. Designed to connect a pump or motor to an external shaft or gearbox these often unforgotten components play an important role in the drive line of the system. Hub City's range of hubs, shafts and reducing bushes are designed to stand up to the rigours of a mobile hydraulic system.
