

**In this month's Hydrafile:****New Website - Online Shopping**

Our new website with online shopping is now available. The address remains the same [www.hyspecs.co.nz](http://www.hyspecs.co.nz).

Along with a fresh new look our full line of stock is available for browsing & purchasing with specification information, pricing and the ability to search by part number or description.

[Click here](#) to go to the new website now.

To purchase goods online you must register first. The process is easy and intuitive but is not needed to browse the website or the shopping area.

Our web site and forms are not secure and thus credit card details should not be given using these forms of communication. Instead, when using the on-line ordering you will be asked to indicate your preferred method of payment (Credit, Cash, Account, and Cheque) and Hyspecs can work through your request, and then contact you with regards to finalising the order. Another reason for not having direct debit facilities of credit cards is that the nature of the product we sell, we believe more often than not will require the assistance of our sales engineers to make sure you get the right part for the job.

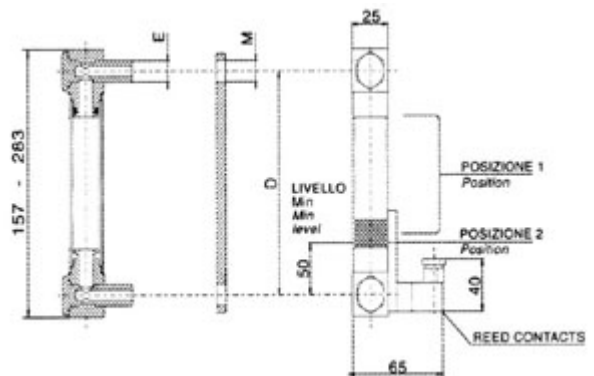

As you are the one the new site has been designed for, we want to make sure it is easy to use and gives the right information when you need it. If you have any suggestions for the new site, please email us by [clicking here](#).

**New Product - OMT Level Gauges & Oil Tanks**

Due to popular demand Hyspecs is now stocking OMT visual/electric level gauges, models LV2E & LV3E with 127mm and 254mm bolt centres respectively. To download the specification sheet on these gauges [click here](#) and go to page 4.

We have also expanded our range of OMT aluminium oil tanks which now include 16, 25, 55 and 75 litres. Download the OMT Oil Tank brochure from [here](#).

For more information or to purchase one of these products talk with one of our sales engineers today using the contact details in the left hand column, or send us an email by [clicking here](#).

Kind regards

Nick Cottier
